Older telephone wiring was a basic Cat-3, 4 conductor or 2-pairs with red, green, black, yellow. Newer homes can have anything from Cat-3, 3-pair on up to Cat-5e, with 4-pairs, with the insulation colors being a combination of solid and solid with white for each wiring pair. The wire pair colors are blue, orange, green and brown.

Telephone Wiring Diagram - Electrical Wiring

Plug in a phone (non-cordless, preferably) into the master socket and check if there's a dial tone. If there is, that means there's already a phone line installed, but customers may still have to pay a connection or activation fee to transfer it to their chosen provider.

Get a new phone line installed for free

Local and national UK phone numbers that begin '01', '02' or '03' UK mobile numbers '07' '08' numbers; International calls ; Calls made through the operator ; Premium-rate numbers ; If you do make any of these calls, you will be charged at our standard BT Basic calling plan rates. You can find details of these rates on our website.

What do you get with BT Basic? - BTplc.com

If you don't already have a BT phone line in your home, we'll arrange for an engineer to install one when you place your order. Can I cancel the BT Package that I've ordered? You may cancel your agreement for the service and order for equipment within 14 days from your service start date (or the day you receive your order confirmation or your equipment is delivered, if this is later).

BT Landline | Get a BT Home Phone | BT

Physical installation of a brand-new phone line requires planning. This begins with a line check, an automated procedure performed by the provider to who you're planning to move. Phone lines on the BT network can all be checked regardless of who your intended provider is; a central database is available to providers, enabling them to quickly establish whether the line is active and suitable for voice and data.

Installation | BT Help

In years gone past, it was the responsibility of the phone company not only to bring phone service to your house but to do the phone wiring within your house as well. This is no longer the case. When you order phone service to your house, the local phone company installs a network interface device , a sturdy grey plastic box usually mounted either in your basement or on an outside wall.

Doing your own telephone wiring

Basic is a low-cost package that broadband providers run at a loss, in order to meet their Universal Service commitment. Basic aims to keep phones ringing in the most vulnerable households by charging just f5.16 a month.This comes with a call allowance of f1.50, plus free weekend calls to 0845 and 0870 numbers (lasting up to 60 minutes).
