Bruce-Goldstein 4. Donders' main reason for doing his choice reaction time experiment was to study 5. By comparing reaction times across different tasks, Donders was able to conclude how long the mind needs to perform a certain cognitive task. Donders interpreted the difference in reaction time between the simple and choice conditions of his experiment as indicating how long it took to 6. The main point of the Donders' reaction time experiments was to a. show that reaction times can be measured ...
