Hype Cycle for Cloud Computing, 2012 - Gartner
Over the past several years,

companies have gradually been moving their data and work processes to the cloud. Some have been reluctant to make this move, though, most often because of concerns about cloud security. Even for the most avid supporters of cloud-based work, security is an

important issue. And accordingly, Gartner has a Hype Cycle chart for visualizing where different technologies in cloud security currently lie in terms of the attention they're getting.
