Detailed wiring pinout can be found in the device user manual. For Horus users with AD RUN 3 modules. This warning applies **ONLY** to the initial RUN 3 production batch of AD8 and AD8P and has been fixed for all modules shipped starting November 2012: The 48V power **MUST** be turned off prior to changing the connection in certain patch bays. Many such patch bays do short the Hot, Cold or both signals to Ground during insertion or removal of the Jacks with the risk of deteriorating permanently the
