The duel here? Sherman tanks versus Panthers in the Battle of the Bulge. On paper, the Panther was a superior tank, so the so-called duel would seem to have been one-sided. However, as the book argues, there were simply more Shermans than Panthers and American tank crews were better than the depleted German tankers. As a result, the Sherman tanks ended up, as a group, doing well.

The book presents an argument that the reliability, ease of manufacture and ease of servicing of the Sherman outweighed its disadvantages relative to the Panther in terms of firepower and armour. That the Panther was prone to failure, complex and suffered from not having been designed for manufacture is generally recognised.

The German Panzer-kampf-wagen V (Panther) tank was superior to the American M4 Sherman in almost every respect, but it could not guarantee victory at every encounter. The Germans knew that their Panther, with its balanced design of firepower, mobility, and crew protection, was their best armored vehicle. It had a superior main gun and frontal armor.
